CAREER PROFILE

Analytical and business-minded MIS student with a strong foundation in data science and hands-on experience delivering solutions through Python, SQL, Excel, R, and Tableau. Skilled at translating business needs into data-driven insights, designing databases, and building models that support decision-making. Proven leader through academic projects and team-based organizations, with a track record of guiding groups to high performance and measurable results. Seeking opportunities to apply technical skills and business acumen to drive efficiency, solve problems, and create value.

EDUCATION

BAYLOR UNIVERSITY – Waco, Texas

Dec 2026

Bachelor of Business Administration

Major: Management Information Systems | **Minor:** Data Science | **GPA:** 3.7

Business Scholar Program

EXPERIENCE

ALPHA KAPPA PSI

Fall 2025 – Present

Recruitment Committee Leader

- Coordinated recruitment events and information sessions for 50+ prospective members, ensuring smooth logistics and a positive candidate experience
- Collaborated with peers to design outreach strategies that increased engagement during the recruitment cycle
- Represented the fraternity in small-group discussions, strengthening candidate relationships and reinforcing organizational values

EVENT REGISTRATION DATABASE SYSTEM (academic project)

Spring 2025

Project Lead

- Built a functional event registration system prototype in Oracle Apex to manage users, events, and reporting needs for a mock client organization
- Designed an Entity Relationship Diagram (ERD) and implemented a relational database that handled participant sign-ups, schedules, and attendance tracking
- Developed and tested SQL queries to generate attendance summaries and event performance reports, enabling data-driven decision-making for future events

DATA VISUALIZATION & ANALYTICS PROJECT (Shiny App)

fall 2025

Project Lead — R, Shiny, ggplot2

- Built and deployed an interactive Shiny dashboard combining multiple datasets to analyze coffee consumption, taste preferences, and self-rated expertise
- Cleaned and transformed survey data using tidyverse pipelines and regular expressions to prepare datasets for analysis and visualization
- Implemented reactive inputs across multiple views to allow users to dynamically explore patterns and relationships through interactive visualizations

ADDITIONAL

- **Computer Skills:** Excel MOS certification, Tableau, C++, Python, R, SQL
- **Organizations:** Alpha Kappa Psi, Alpha Lambda Delta
- **Interests:** Coding, Reading, and Strategy games
